- Tutored children in reading or math at their elementary schools, or local libraries
- Donated new or gently used books to schools in underserved communities
- Taught karate, or gave free soccer, baseball, basketball or dance lessons through a community center
- Led composting or recycling campaigns
- Organized walks or runs to shed light on illnesses, cancers or issues
- Opened music booths at their Farmer's Markets so people could play instruments for free
- Built playgrounds in underserved communities
- Constructed libraries at Juvenile Detention Centers
- Organized shoe drives, or collect new and gently used sports gear for kids across the globe

While we love our furry friends, we hope you will use your Mitzvah Project to prioritize organizations that serve humans! If you need help connecting with any of

these organizations, ask your Rabbi. We have a lot of connections!
